*Decorate it. Modify it. **Customize it.***

Your company's personal image

Through our Imagine It® program we have taken the capability of creating customized uniform items and apparel to a new level. The possibilities are (almost) endless. This unique program allows you to select stock apparel from our many brands and modify or customize them to create unique uniforms that cater directly to your customer's needs.

No business tool impacts your company's image as powerfully as the right apparel, and Imagine It® provides the tools to set you apart from the competition.

*Decorate It. Modify It. **Customize It.***

EMBROIDERY

ACTIVITY: EL - EMBROIDER LOGOS / EH - EMBROIDER BALL CAPS

Embroidery is one of the first enhancements most customers look at when considering decoration of VF Workwear apparel. A logo announces to the world who you represent, and a strong first impression can make a big difference in business. Imagine It can handle all aspects of your embroidery needs. We offer a wide selection of thread colors shown on pages 11 - 13. If you need your logo digitized, we can handle that as well.

How to Request a Custom Logo

- **Contact Customer Service** for additional information on submitting new logo image artwork. 1-800-733-5271
- **Formats** - Acceptable formats for artwork of logo include: .TIF, .BMP, .JPG, or .EPS. Or, submit a previously digitized file (Tajima format preferred).
- **Color / Thread Limitations** - Custom logos are limited to 9 colors.
- **Size** - A typical left or right chest location is about 2 ½" x 3 ½". Small detail in a logo design may require resizing or an adjustment so that detail can be seen. See page 5 for size guidelines on garments and locations.
- **Timeline** - If required, please allow up to 3 days to receive a sew-off of custom logos. Logos in excess of 20,000 stitches may require longer.

Using the Online Interface

We are happy to work with you to have your logos loaded into our system under your customer account number. This will allow your logos to populate within the Imagine It interface screen to be utilized for online customization. Ask your VF Customer Service Representative for more information.

EMBROIDERY LOCATIONS

VF Workwear uses colorfast embroidery threads for all embroidery applications. These threads are also accepted by the industrial laundry industry. Using good laundry practices, as outlined in the “Red Kap Guide to Laundry Processing,” will produce acceptable results with industrial processed garments. Because end use and processing requirements will vary, laundering a sample is recommended to determine the specific guidelines that work best in your situation.

Embroidery Guidelines and Success Tips

- Placement and size can differ based on the garment they will be sewn on. These pages show placements and size guidelines for various garment types.
- To determine the best size and placement for embroidery, photocopy the logo to the desired size, cut it out and place it on the garment in various locations until the best size and location is determined.
- If grommets, eyelets or badges will be going on the same side of a garment as embroidery, be sure to leave the appropriate space for the badge when specifying embroidery location.

EMBROIDERY CODES WITH SIZE GUIDELINES

All sizes below listed as inches.

BBC - Back, 1" Below Collar	1x4
BBY - Back Yoke	1½ x 4
CBC - Center Back Collar	1x1

*RSP - Right Side Panel, Cap	1x1½

Don't see your location listed? Contact Customer Service. We have over 300 different embroidery locations across all garments, and one that will work for you.

STOCK EMBLEMS

ACTIVITY: AM

Whether adding an embroidered "name" emblem, or an American flag, or one of your own emblems we will attach them all with expertise. Emblems supplied by our customers are kept in a secured area and applied at the time of order allowing the customer flexibility to decorate their garments with a variety of emblem placements.

EM3323

American Flag with right star field and Gold Trim 3" x 1 7/8"

EMR037

American Flag with left star field and Gold Trim 3 1/2" x 2"

The US Department of Defense has this to say regarding the proper placement of the American Flag on uniforms.

"The regulation states that when authorized for application to the proper uniform the American flag patch is to be worn, right or left shoulder, so that "the star field faces forward, or to the flag's own right. When worn in this manner, the flag is facing to the observers right, and gives the effect of the flag flying in the breeze as the wearer moves forward. The appropriate replica for the right sleeve is identified as the "reverse side flag".

AMERICAN FLAG EMBLEMS

Lot #	Border	Star Field	Size
EHP016	White	Left	1 3/4" x 1"
EM2437	White	Left	3 1/2" x 2"
EMR037	Gold	Left	3 1/2" x 2"
EM3981	Gold	Left	3 1/2" x 2 1/2"
EMR1AF	Gold	Left	4" x 2 1/2"
EM3461	White	Right	3 1/2" x 2"
EM3323	Gold	Right	3" x 1 7/8"

DIRECT EMBROIDERY

ACTIVITY: ED

Four fonts are offered for direct embroidery, with several sizes in each (3/8" - 1"). Embroider text directly on a garment, an emblem, or on a name strip. This option is most often used for names, titles, accredits, etc. and can be done easily without the need for digitization.

- Multiple lines of type, in the same or different sizes, can be added to a garment. To add more than one line, please contact a Customer Service Representative at 1.800.733.5271 to order this option.
- Please specify if all CAPS are required. Using all caps will reduce the number of characters per line. The character counts listed below are based on lower case.

**Embroidery will be done in requested font/case/spelling.*

REFLECTIVE STRIPING

Enhanced visibility can be critical when working in high-traffic areas, on construction sites or around equipment operation. Adding reflective striping to your uniform can make a life-saving difference. Select from the many trim widths, colors and placements to make your enhancements have the highest impact. These distinctive stripings can be added to most garments. Flame-resistant striping is also available. The garments and striping you select should depend on the end use requirements.

With a few exceptions, stripes shown above the waist can be applied to a shirt, jacket or coverall. Stripes shown below the waist can apply to a pant, short, or coverall. The specific details of a garment, like the size of a pocket, the placement of closures, an emblem or an additional pocket, may dictate a slight change in the placement from what is shown in these images.

- Striping applied post-manufacturing will always go around a pocket or emblem. Pockets cannot be removed for reflective trim application.
- Stripes on a waistband will be moved up or down if the waistband has elastic sections.

ANSI Compliant Striping

The stripe configurations shown here are not necessarily ANSI compliant. To provide guidance for the protection of all those exposed to the hazards of limited visibility, the American National Standards Institute, Inc. (ANSI), approved ANSI/ISEA 107-2015, the American National Standard for High-Visibility Safety Apparel. ANSI/ISEA 107-2015 establishes design, material, photometric and physical performance requirements, care labeling and marking rules for high visibility garments.

End users should conduct a hazard assessment in order to select garments with the proper type, class and design placement for their work environment. Please refer to ANSI/ISEA 107-2015 for further information.

Additional packages

If you don't see what you are looking for on these pages, additional packages are available to view on-line. Go to vfimagewear.com and, after logging in, click on the "Reflective Striping" heading. Images will be located under three categories: tops, bottoms, and coveralls. The three-digit code shown with each drawing is the location code for ordering that configuration. Submit that along with the two-digit activity code, found on pages 22 and 23 and you're ready to order.

All illustrations are shown on generic garment images.

REFLECTIVE TRIM

There are several color options and widths of reflective trims that can be selected for attachment to your garments. Ours are divided into four categories: FR – Industrial Wash, FR – Home Wash, Industrial Wash, and Home Wash. Many stripe styles are available in one or more of these categories; however, prices will vary depending on the trim and locations selected. Please be sure to select the correct trim.

EPAULETS AND POCKET FLAPS

ACTIVITY: AE - ADD EPAULETS / FM_LRE - REPLACE EPAULETS
AF - ADD FLAPS / FM_LRF - REPLACE FLAPS

Epaulets and pocket flaps can quickly turn a generic garment into one that speaks directly to a specific job function. Whether using contrasting color combinations or matching trims these shirts can dress employees from security to parking attendants, bellmen and doormen.

BROWN - CB

WHITE - WH

SPRUCE GREEN - SG

RED - RD

BLACK - BK

NAVY - NV

CHARCOAL - CH

GREY - LA

Epaulets are attached at sleeve set seam and end 1" from the collar band.

Fabrics are 65/35 poplin and match the fabrics and colors of our SP14 industrial workshirt.

Epaulet Size Chart

FOR SHIRT SIZE	ORDER COMPONENT LOT NUMBER	2 DIGIT COLOR #
S, M, L, XL	EERL	as indicated under images
2XL, 3XL and up	EERT	as indicated under images

For example: If you want red epaulets added to an XL shirt, order EERLRD.

Epaulets are sold with matching plastic buttons.

HEX POCKET FLAPS

Available in two sizes.

Large Hex Pocket Flaps - 5 3/4" x 2 1/4"

LOT #	2 DIGIT COLOR CODE	SHIRT TYPE
EFRU	CH (charcoal), RD (red)	Dress Shirts

Small Hex Pocket Flaps - 5 1/4" x 2 1/8"

LOT #	2 DIGIT COLOR CODE	SHIRT TYPE
EFRW	RD (red), NV (navy), BK (black)	Work Shirts

Charcoal - CH (EFRU Only)

Red - RD (Both)

Black - BK (EFRW Only)

Navy - NV (EFRW Only)

PANT STRIPES AND HEMS

Get a leg up on the competition by adding a distinctive stripe to any pair of pants and attain uniform excellence when coordinating them with our distinctive selection of shirts and shirt trims. The 1" stripes shown here can stand on their own or be teamed with a second layer to create a piggyback stripe. Or, choose bias workwear stripes like the one shown on the brown pant, in ½" widths.

- A.** 1" stripe with second layer
Code: AS_OSW_+ components
- B.** ¾" stripe
Code: AS_OSW_+ component
- C.** ½" bias stripe
Code: 3B_OSW_+ component

WE'LL GO TO ANY LENGTH TO HELP YOU ACHIEVE THE LOOK YOU WANT

Whether it's capris or bermudas, straight lengths or cuffed hems, we'll customize your pants to fit your needs no matter what the climate or fashion demands.

Available hems: Pants will be hemmed to the desired inseam length with the designated hem for that pant. VF Workwear hem pricing rules apply. Other hem types are available for an additional charge. These must be ordered through a Customer Service Representative.

- A.** 12" long Bermuda short | Code: HH_L12
- B.** 15" long - just below the knee | Code: HH_L15
- C.** 23" Capri length - 21" (short) and 25" (long)
Code: HH_L23, HH_L21, HH_L25
- D.** Full length standard hem up to 36" in length.
No customization codes needed.
- E.** Cuffed Dress Pant | Code: CP_ up to L33 ½". Cuff depth is 1 ¼"

SE	Reinforce Metal Button
SK	Silk-Screen Logo
SL	Silk-Screen Lettering
SP	Sew Locations Closed
TM	Apply Heat TR Logo/Emblem
ZM	Attach Maternity Knit Panel
ZZ	Attach Heatseal ID Label

BUTTONS

ACTIVITY: KC - CHANGE OUT TO PLASTIC BUTTONS / 2C - CHANGE OUT TO UPGRADED METAL BUTTONS

Looking for better closure? You're bound to get it when choosing from our distinctive collection of buttons. Add a touch of class to any uniform by exchanging existing buttons for upgraded metallic options in different finishes. Add color and zing to a chef's coat by replacing white buttons with color versions. A single upgrade like this will go a long way toward achieving a look that will have your employees proud to be in uniform.

As shown in the images here, consider customizing your garment by changing out **some** of the buttons where possible. One option is to upgrade buttons to gold or silver on the pocket flaps and epaulets of security shirts, allowing the front buttons to remain white. Changing buttons on a basic chef coat can take it from the kitchen to a presentation coat.

BUTTONS

The metallic buttons available for upgrades to Workwear products are shown here. Available sizes are shown under each button. Select from various designs in gold or silver, or colored plastics.

Metallic Buttons - Home Wash or Dry Clean

Plastic Buttons - Industrial Laundry, Home Wash or Dry Clean

We can also store and apply customer-supplied buttons. Contact a CSR for more information.

MATERNITY PANT CUSTOMIZATION OPTION

ACTIVITY CODE: ZM / LOCATION CODE: CMF

MADE FOR USE WITH:

**RED KAP Dura-Kap® Women's Industrial Pant
Lot# PT21 - All Colors**

**HORACE SMALL Sentry Trousers for Women
All Colors**

Since most relevant features are cut away from the pant when the maternity version is created, it is recommended to use these basic pant Lot numbers for the most cost effective options. Other base lots can be used when necessary, and may need to be set up as we go.

MATERNITY PANEL:

FABRIC: 8.3 oz. Stretch Knit

BLEND: 65% Rayon, 29% Nylon, 6% Spandex

CARE: Home Wash

COLOR: Black Only

CLOSURE: 1/2" Comfort Elastic all around waist

FOR PANT SIZE	COMPONENT LOT NUMBER	PANEL COLOR
2,4,6	EMPS06	Black only
8,10,12	EMPM12	Black only
14,16	EMPL16	Black only
18,20,+	EMPX20	Black only

Price: \$25.00 USD / OTS: 12/01/2017

(shown on PT21)

Changes/Upgrades from previous maternity panel:

- Panel is a two piece design that replaces front and back sections of the woven pant
- Two piece construction brings stretch and ease to the back, as there is no woven constructed waistband causing discomfort
- Front panel is longer, so it covers the belly and has enough fabric to expand as the pregnancy moves to full term
- Softer, 1/2" comfort elastic won't constrict or bind
- Heavier, softer, 4-way stretch fabric is comfortable and secure on the body while remaining breathable

Illustrations are shown on generic garment images.

PULLING IT ALL TOGETHER

DECORATIVE TRIMS

From ribbon to soutache or middy braid, there are many available options when it comes to customizing collars, cuffs, and shirt fronts. Just a touch of silver or an edge in red can make an image statement that's hard to forget. After all, isn't that the impression we're all trying to make? Shown here are a few of the many possibilities. Over the next several pages, we'll give you a great start to formulating your own ideas as to

how you can take your image to another level! The images on the following pages were created to assist you in visualizing trim placements on a variety of garments. If you have any questions, call your Customer Service Representative at 1.800.733.5271, and they will assist you in placing an order. These images DO NOT show all available options and are not available on all products.

NEW! HI-VIS REFLECTIVE SEGMENTED TRIMS

ACTIVITY CODE: 2S / LOCATION CODE: Various (see next page for details)

The reflective and segmented portion of this 3M trim has been adhered to a 100% polyester grosgrain trim in a selection of great uniform friendly colors to enhance your garments. Sewn in locations that you've chosen at time of order, they will take automotive apparel, or industrial workwear, and give it a whole new look and feel. A great way to incorporate both color and reflectivity with one selection. *Garments decorated with these trims would not be compliant with any industry reflective standards.*

CHEF COATS

FABRIC OVERLAYS

Beginning with a corporate color story, build your program by selecting from our assortment of fabric overlay options. One selection used strategically over several items can pull together the look you want, one employee at a time.

We've done our homework to determine which fabrics can be safely applied to others, to ensure against color bleed, crocking, or differential shrinkage. That said, trim and overlay options may change as you decorate different base garments.

CHEF COATS CONTINUED...

Combining fabric overlays with middy braids, bias, soutache or piping can take a chef coat from prep to executive with a few clicks and a little creativity. Use the images shown here to inspire your own color stories and designs.

TRIMS

The following five pages provide images of our trim selection by style and color. Information included with each section will guide you as to the potential uses and wash options.

PIPING

Piping (also called cordage) is a pre-made trim and is 100% Polyester. Piping is inserted inside a seam so that the "lip" is hidden and the rounded "cord" part of the trim is exposed. Because of the prep work, or deconstruction of the garment that is necessary to add piping, it is typically more expensive than some other customization options. It can be used on a variety of garments. If pricing is sensitive consider using soutache as an alternative.

Metallic Piping - Dry Clean

Colored Piping - Home Wash or Dry Clean

("CORDED" PORTION IS 1/8" WIDE)

Black 1/8" **EHP062**

Red 1/8" **EHP066**

RIBBONS

Our ribbons are 100% Polyester and can be used in a variety of applications. Ribbon colors cannot be changed. Garments customized with ribbon can be dry cleaned, home washed, and light soil washed.

Black/White Check 1/2" **EHP051**

PATTERNED FUSED TRIM

Diamond Plate 3/4" **EHP304**

MIDDY BRAID

Our 100% Polyester middy braid trim comes in two standard widths, 1/4" and 1/2" to allow for the best customization options.

Metallic Middy Braid - Home Wash or Dry Clean

Colored Middy Braid - Industrial Laundry, Home Wash or Dry Clean

Antique Gold 1/2" **EHP084**

Antique Gold 1/4" **EHP083**

Pewter 1/4" **EHP091**

Red 1/4" **EHP024**

Royal Blue 1/4" **EHP025**

Gold 1/2" **EHP036** Hand Wash or Dry Clean Only

SOUTACHE

Our soutache braid is 100% Polyester and can be used on many different garments. It can be used instead of piping without needing to break open a seam or can be used as an accent to work with a fabric overlay.

Metallic Soutache - Dry Clean

Colored Soutache - Home Wash or Dry Clean

Suggested Placements:

Add to the edge of an overlay or stripe on the collar and/or cuff, or to the edge of a collar/front instead of piping.

Antique Gold 1/8" **EHP086**

Black 1/8" **EHP001**

Black 1/8" **EW3902**

Royal Blue 1/8" **EW3903**

KNIT TRIM

Our knit trim is 100% Polyester and can be washed in a light soil industrial environment. Because it is a knit, it is more flexible and can maneuver around corners on collars and cuffs. Garments customized with knit trim can be industrial laundered, home washed or dry cleaned.

Suggested Placements:

Cuffs, collars and/or fronts of culinary items or aprons, or other industrial launderable service apparel items, such as lab coats or counter coats.

Black 1/2" **EHP040**

Red 1/2" **EHP041**

Kelly Green 1/2" **EHP043**

1" STRIPES

The stripes shown here are straight cut and 1" in width. They are 100% Polyester with a fused backing in order to maintain their shape and eliminate shrinkage.

These stripes can also be used for embroidering a name. This application is home wash and industrial laundry friendly and provides an alternative to name embroidery on an emblem.

Suggested Placements:

Any pant or short side seam. As a name strip for embroidery purposes, placement is usually left or right upper front.

6.0 OZ. PLAIN WEAVE POPLIN

The four fabrics below are excellent options for overlays that will be industrial laundered. The additional polyester will provide better color retention.

Suggested Placements:

For use on chef coats, butcher coats and lab coats being washed in an industrial laundry application.

6.0 oz Poplin - Red **E82217**

6.0 oz Poplin - Kelly Green **E82214**

6.0 oz Poplin - Royal Blue **E82216**

6.0 oz Poplin - Black **E82219**

FABRIC OVERLAYS & BIAS TRIMS

Color swatches below represent many of the fabrics used for customization overlays and bias trims. Overlays and bias trims should match the fabric content of the garment being customized when possible. Washing instructions will not change when a garment is customized with the same fabrics or trims in different colors.

Suggested Placements:

Numerous stand-alone options including collars and cuffs in various locations, as well as on fly front plackets, shoulders and pockets. Bias trims can also complement collar and cuff overlays.
